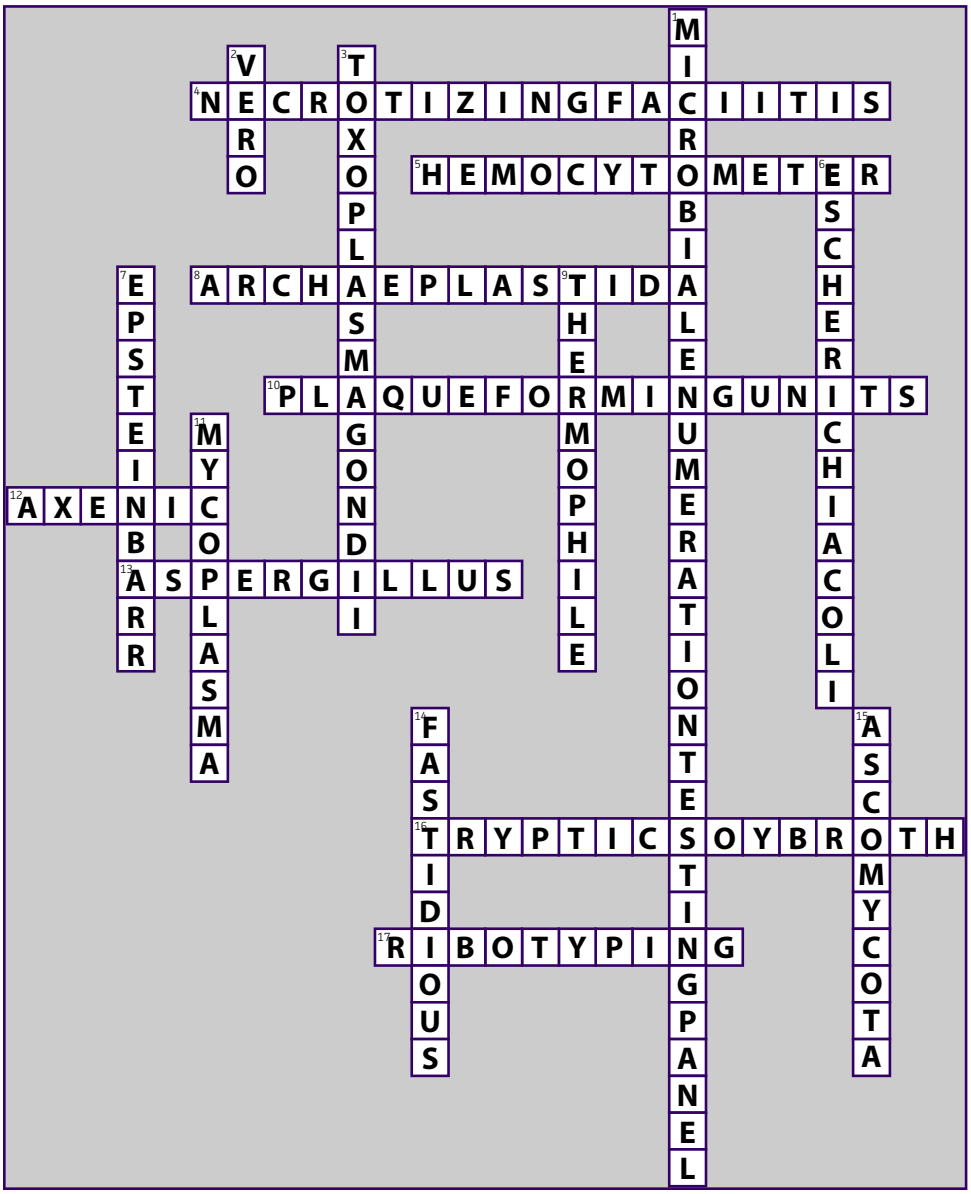
THE ESSENTIALS OF
LIFE SCIENCE RESEARCH
GLOBALLY DELIVERED™

ATCC™

Test Your Technical Expertise!



Across

4. A deadly skin infection caused by Group A Streptococcus
5. The instrument used to determine protist cell counts
8. A protist supergroup containing photosynthetic species
10. Viral counts
12. A pure culture
13. Fungal genus recently associated with fungal meningitis
16. The reagent most commonly used to freeze non-fastidious bacteria
17. A technique used to fingerprint bacterial genomes (Hint: See ATCC Resources for Microbiology on the ATCC website)

Down

1. An ATCC microbial panel used in pharmaceutical quality control analysis
2. A propagation host recommended by ATCC for Human Herpesvirus 1 (Hint: See ATCC® No. VR-260™ on ATCC website)
3. Protozoan known to alter brain chemistry
6. A bacterial species declared as an adulterant by the USDA
7. In rare cases, the _____ virus can contribute to neoplastic disorders such as Burkitt's lymphoma
9. Describes an organism that is capable of surviving and reproducing in extremely hot temperatures
11. A frequent contaminant of cell culture (Hint: See ATCC Services)
14. A term used to describe microorganisms that have complex nutritional needs
15. The fungal phylum commonly known as the sac fungi
