

Product Sheet

Rhodovulum tesquicola (ATCC® BAA-1573™)

Please read this FIRST

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Rhodovulum tesquicola* (ATCC® BAA-1573™)

Description

Designation: A-36s

Propagation

Medium

ATCC® Medium 2728: Modified Pfennig's Medium
ATCC® Medium 2: Marine agar 2216 or marine broth 2216

Growth Conditions

Temperature: 30°C

Atmosphere: Anaerobic under a tungsten lamp

Propagation Procedure

1. Immediately prior to working with the culture place the frozen vial at room temperature to thaw.
2. While using good anaerobic technique aseptically transfer the entire contents of the vial into a single broth tube (6-8 ml) of ATCC® medium 2728. Additional tubes can be inoculated by transferring of 0.1 ml to slants and 0.5 ml to broth tubes.
3. Incubate the culture at 30°C under a tungsten lamp (2000-3000 lux).
4. Growth should be detected within 5 to 6 days. Growth on marine agar will occur in 3 to 5 days.

Notes

Cells are gram negative short rods. Colonies on marine agar are round, translucent, and pink. Additional information on this culture is available on the ATCC® web site at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org
