## Description

**Designation:** Grapes

**Deposited Name:** *Sphaerochaeta pleomorpha*

## Propagation

### Medium

ATCC® Medium 2745: Half Tryptic Soy Broth Media for *Sphaerochaeta* spp.

### Growth Conditions

**Temperature:** 26°C

**Atmosphere:** Anaerobic; 80% N<sub>2</sub>-20% CO<sub>2</sub> or 100% N<sub>2</sub>

### Propagation Procedure

1. Immediately prior to working with the culture, place the frozen vial at room temperature to thaw.
2. If the medium is more than a week old, exchange the head space for fresh 80% N<sub>2</sub> 20% CO<sub>2</sub>.
3. Using a syringe, aseptically transfer the entire contents of the vial into a single tube (8 to 10 ml) of #2745 broth. Mix well.
4. Use several drops of the suspension to inoculate a #18 agar slant and/or plate. Additional tubes of #2745 broth can be inoculated by transferring 0.5 ml of the original broth.
5. Incubate the tubes and plate at 26°C for 5 to 7 days.

## Notes

This culture must be grown under anaerobic conditions. No aerobic growth was detected. Additional information on this culture is available on the ATCC® web site at [www.atcc.org](http://www.atcc.org).

## References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

## Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

## ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

## Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org)
