## Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

## Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Human adenovirus 36 (ATCC® VR-1610™)

## Description

**Strain:** 275

**Classification:** Adenoviridae, Mastadenovirus, Human adenovirus D

**Original Source:**

Feces from human diabetic; derived from ATCC VR-913 following treatment to remove mycoplasma contamination.

**Depositor:** R. Wigand, ATCC

## Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

## Propagation

**Propagation Host:**

**Production Host:** A549 (ATCC CCL-185)

**Production Host:** A549 cells (ATCC CCL-185)

**Alternate Hosts:** HeLa, HEP-2, HEL

**Effect on Host:**

CPE in cell culture, typical adenovirus rounding beginning in clusters.

CPE, typical adenovirus rounding beginning in clusters

**Medium:**

Virus growth medium: EMEM (ATCC 30-2003) + 2%FBS (ATCC 30-2020)

## Growth Conditions

For best results, plate cells 24-48 hours in advance. Infect at about 80% confluence using a multiplicity of infection (MOI) of 0.1 to 1.0. Incubate at 37.0°C for 3-7 days, until CPE are well advanced in 100% of the culture. A 5% CO<sub>2</sub> in air atmosphere is recommended.

## Comments

No serological cross-reaction with other human adenoviruses. Hemagglutinin active for rat and human erythrocytes.

## References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

## Key Abbreviations

CPE, cytopathic effect

FBS, fetal bovine serum

HEL, human embryonic diploid fibroblast cells

HeLa, human cervix epitheloid carcinoma cells

HEP-2, human larynx epidermoid carcinoma cells with HeLa markers

product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

**Disclaimers**

*This product is intended for laboratory research purposes only. It is not intended for use in humans.*

*While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy.
