Description

Strain: A/Equine/2/Miami/63
Classification: Orthomyxoviridae, Influenzavirus A
Original Source:
Nasal washings from a thoroughbred horse
Depositor: GH Waddell

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:
chicken embryo
Recommended Host: SPF CE (10 to 11 day, intra allantoic)
chicken embryo; equine kidney cells; hamster embryo kidney cells

Effect on Host:
Yes, in vitro effects: hemagglutinins in allantoic fluids
Hemagglutinates chicken RBC and guinea pig RBC.

Growth Conditions

Duration: 2-3 days

Comments

Hemagglutinates both chick and guinea pig RBC. Higher HA titers obtained with guinea pig RBC.

Key Abbreviations

AI, allantoic
BD, Becton, Dickinson and Company
CDC, Centers for Disease Control and Prevention
CE, chicken embryo
CEID₅₀ (CEID[50]), The Chicken Embryo Infectious Dose 50% endpoint is the 50% infectious endpoint in chicken embryo. The CEID₅₀ is the dilution of virus that under the conditions of the assay can be expected to infect 50% of the chicken embryos inoculated, just as a Lethal Dose 50% (LD₅₀) is expected to kill half of the animals exposed. A reciprocal of the dilution required to yield the CEID₅₀ provides a measure of the titer (or infectivity) of a virus preparation.
CO₂ (CO2), carbon dioxide
CRBC, chicken red blood cells
ELISA, enzyme linked immunosorbent assay
HA, hemagglutination
i.a., intra allantoic
mL, milliliter
RBC, red blood cells
RT, room temperature
SPF, specific pathogen free

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: (ATCC® VR-317™)

Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org

Additional information on this culture is available on the ATCC web site at www.atcc.org.
