

**ATCC medium: 46 Fluid thioglycollate medium with rabbit serum**

Prepare commercial Thioglycollate Medium, Fluid (BD 211260) per manufacturer's instructions except use only 900 ml of distilled water. Autoclave at 121C for 15 minutes. Cool to 45-50 C.

Aseptically add 100 ml of rabbit serum to the sterile basal medium. Dispense as desired.
