

# Dulbecco's Modified Eagle's Medium (DMEM)

30-2002<sup>TM</sup>

## Description

ATCC®-formulated Dulbecco's Modified Eagle's Medium (DMEM) is a high-quality, sterile liquid medium designed for culturing a broad range of mammalian cells, such as ATCC's 293T (ATCC® CRL-3216™). Based on the classic DMEM formulation, it contains elevated glucose, amino acids, vitamins, and inorganic salts to support robust cell growth and metabolism. The medium includes sodium bicarbonate for buffering and phenol red for pH indication. Suitable for applications in cancer research, bioproduction, and cell physiology. Supplement with serum as needed.

# Dulbecco's Modified Eagle's Medium (DMEM)

30-2002

ATCC determined that a biosafety level is not applicable to this material based on our risk assessment as guided by the current edition of *Biosafety in Microbiological and Biomedical Laboratories (BMBL)*, U.S. Department of Health and Human Services. It is your responsibility to complete your own risk assessment and understand any potential hazards associated with the material per your organization's policies and procedures and any other applicable regulations as enforced by your local or national agencies.

---

## Certificate of Analysis

For batch-specific test results, refer to the applicable certificate of analysis that can be found at [www.atcc.org](http://www.atcc.org).

---

## Quality Control Specifications

**Bacterial and fungal testing:** Not detected

**Mycoplasma contamination:** Not detected

**Endotoxin:**  $\leq 0.5$  EU/mL

**Osmolality:** 270 to 366 mOsm/kg

**pH:** 7.0 to 7.4

**Growth promotion:** Pass

---

## Notes

Store medium at 2°C to 8°C in the dark when not in use.

---

## Material Citation

If use of this material results in a scientific publication, please cite the material in the following manner: Dulbecco's Modified Eagle's Medium (DMEM) (ATCC 30-2002)

## Warranty

The product is provided 'AS IS' and the viability of ATCC® products is warranted for 30 days from the date of shipment, provided that the customer has stored and handled the product according to the information included on the product information sheet, website, and Certificate of Analysis. For living cultures, ATCC lists the media formulation and reagents that have been found to be effective for the product. While other unspecified media and reagents may also produce satisfactory results, a change in the ATCC and/or depositor-recommended protocols may affect the recovery, growth, and/or function of the product. If an alternative medium formulation or reagent is used, the ATCC warranty for viability is no longer valid. Except as expressly set forth herein, no other warranties of any kind are provided, express or implied, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, manufacture according to cGMP standards, typicality, safety, accuracy, and/or noninfringement.

---

## Disclaimers

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use. Any proposed commercial use is prohibited without a [license from ATCC](#).

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate or complete and the customer bears the sole responsibility
