

Dulbecco's Modified Eagle's Medium (DMEM)

30-2002™

Description

ATCC®-formulated Dulbecco's Modified Eagle's Medium (DMEM) is a high-quality, sterile liquid medium designed for culturing a broad range of mammalian cells, such as ATCC's 293T (ATCC® CRL-3216™). Based on the classic DMEM formulation, it contains elevated glucose, amino acids, vitamins, and inorganic salts to support robust cell growth and metabolism. The medium includes sodium bicarbonate for buffering and phenol red for pH indication. Suitable for applications in cancer research, bioproduction, and cell physiology. Supplement with serum as needed.

Disclaimer: Discount eligibility is limited to customers who purchase products directly from the ATCC website. Orders placed through third-party vendors or distributors do not qualify for this discount. ATCC reserves the right to verify purchase details and deny discounts for ineligible orders.

Volume: 500 mL

Storage Conditions

Storage conditions: 2°C to 8°C

Intended Use

Dulbecco's Modified Eagle's Medium (DMEM)

30-2002

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use.

Biosafety Information

ATCC determined that a biosafety level is not applicable to this material based on our risk assessment as guided by the current edition of *Biosafety in Microbiological and Biomedical Laboratories (BMBL)*, U.S. Department of Health and Human Services. It is your responsibility to complete your own risk assessment and understand any potential hazards associated with the material per your organization's policies and procedures and any other applicable regulations as enforced by your local or national agencies.

Certificate of Analysis

For batch-specific test results, refer to the applicable certificate of analysis that can be found at www.atcc.org.

Quality Control Specifications

Bacterial and fungal testing: Not detected

Mycoplasma contamination: Not detected

Endotoxin: ≤ 0.5 EU/mL

Osmolality: 270 to 366 mOsm/kg

pH: 7.0 to 7.4

Growth promotion: Pass

Notes

Store medium at 2°C to 8°C in the dark when not in use.

Material Citation

If use of this material results in a scientific publication, please cite the material in the following manner: Dulbecco's Modified Eagle's Medium (DMEM) (ATCC 30-2002)

Warranty

The product is provided 'AS IS' and the viability of ATCC® products is warranted for 30 days from the date of shipment, provided that the customer has stored and handled the product according to the information included on the product information sheet, website, and Certificate of Analysis. For living cultures, ATCC lists the media formulation and reagents that have been found to be effective for the product. While other unspecified media and reagents may also produce satisfactory results, a change in the ATCC and/or depositor-recommended protocols may affect the recovery, growth, and/or function of the product. If an alternative medium formulation or reagent is used, the ATCC warranty for viability is no longer valid. Except as expressly set forth herein, no other warranties of any kind are provided, express or implied, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, manufacture according to cGMP standards, typicality, safety, accuracy, and/or noninfringement.

Disclaimers

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use. Any proposed commercial use is prohibited without a [license from ATCC](#).

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate or complete and the customer bears the sole responsibility of confirming the accuracy and completeness of any such information.

This product is sent on the condition that the customer is responsible for and assumes all risk and responsibility in connection with the receipt, handling, storage, disposal, and use of the ATCC product including without limitation taking all appropriate safety and handling precautions to minimize health or environmental risk. As a condition of receiving the material, the customer agrees that any activity undertaken with the ATCC product and any progeny or modifications will be conducted in compliance with all applicable laws, regulations, and guidelines. This product is provided 'AS IS' with no representations or warranties whatsoever except as expressly set forth herein and in no event shall ATCC, its parents, subsidiaries, directors, officers, agents, employees, assigns, successors, and affiliates be liable for indirect, special, incidental, or consequential damages of any kind in connection with or arising out of the customer's use of the product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the material transfer agreement (MTA) for further details regarding the use of this product. The MTA is available at www.atcc.org.
