Product Sheet

pSREBP-2

79816[™]

Description

Organism: Homo sapiens, human Clone type: Clone Host: Escherichia coli HB101 (ATCC 33694)

Storage Conditions

Product format: Freeze-dried

Intended Use

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use.

BSL 1

ATCC determines the biosafety level of a material based on our risk assessment as guided by the current edition of *Biosafety in Microbiological and Biomedical Laboratories (BMBL)*, U.S. Department of Health and Human Services. It is your responsibility to understand the hazards associated with the material per your organization's policies and procedures as well as any other applicable regulations as enforced by your local or national agencies.

Certificate of Analysis

pSREBP-2 79816

For batch-specific test results, refer to the applicable certificate of analysis that can be found at www.atcc.org.

Insert Information

Insert size (kb): 4.248999999999999997 Type of DNA: cDNA Insert information: DESCRIPTION OF INSERT COMPONENT: Cross references: DNA Seq. Acc.: U02031 Nucleotides 1-4249 of the insert correspond to nucleotides 1-4249 of U02031. Genome: Homo sapiens Gene name: sterol regulatory element binding transcription factor 2 Gene product: sterol regulatory element binding transcription factor 2(sterol regulatory element-binding protein 2) [SREBP2] Gene symbol: SREBP2 Contains complete coding sequence: Unknown Insert end: EcoRI

Vector Information

Construct size (kb): 8.199999809265137 Intact vector size: 4.000 Vector name: pEXlox(+) Type of vector: phagemid Host range: Escherichia coli Vector end: EcoRI Markers: ampR Replicon: pMB1

Growth Conditions

Medium:

pSREBP-2 79816

ATCC Medium 1227: LB Medium (ATCC medium 1065) with 50 mcg/ml ampicillin **Temperature:** 37°C

Notes

Restriction digests of the clone give the following sizes (kb): BamHI--5.2, 3.0; EcoRV--8.2; SalI--4.25, 3.95; EcoRI--3.95, 2.6, 1.65; EcoRI/SalI--3.95, 2.6, 1.65. - ATCC staff

The fragment excised by a Sall digest contains 6 bp of adaptor sequence. The insert contains the following restriction sites (bp from the 5' end): EcoRI--2614; EcoRV--1142; BamHI--2170. - personal communication

More information may be available from ATCC (http://www.atcc.org or 703-365-2700).

Material Citation

If use of this material results in a scientific publication, please cite the material in the following manner: pSREBP-2 (ATCC 79816)

Warranty

The product is provided 'AS IS' and the viability of ATCC[®] products is warranted for 30 days from the date of shipment, provided that the customer has stored and handled the product according to the information included on the product information sheet, website, and Certificate of Analysis. For living cultures, ATCC lists the media formulation and reagents that have been found to be effective for the product. While other unspecified media and reagents may also produce satisfactory results, a change in the ATCC and/or depositor-recommended protocols may affect the recovery, growth, and/or function of the product. If an alternative medium formulation or reagent is used, the ATCC warranty for viability is no longer valid. Except as expressly set forth herein, no other warranties of any kind are provided, express or implied, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, manufacture according to cGMP standards, typicality, safety, accuracy, and/or noninfringement.

Disclaimers

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use. Any proposed commercial use is prohibited without a license from ATCC.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate or complete and the customer bears the sole responsibility of confirming the accuracy and completeness of any such information.

This product is sent on the condition that the customer is responsible for and assumes all risk and responsibility in connection with the receipt, handling, storage, disposal, and use of the ATCC product including without limitation taking all appropriate safety and handling precautions to minimize health or environmental risk. As a condition of receiving the material, the customer agrees that any activity

undertaken with the ATCC product and any progeny or modifications will be conducted in compliance with all applicable laws, regulations, and guidelines. This product is provided 'AS IS' with no representations or warranties whatsoever except as expressly set forth herein and in no event shall ATCC, its parents, subsidiaries, directors, officers, agents, employees, assigns, successors, and affiliates be liable for indirect, special, incidental, or consequential damages of any kind in connection with or arising out of the customer's use of the product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the material transfer agreement (MTA) for further details regarding the use of this product. The MTA is available at www.atcc.org.
