

5HT1Dalpha

79987™

Product Sheet

Description

Organism: *Homo sapiens*, human

Clone type: Clone

Shipping information: Rehydrate with TE

Storage Conditions

Product format: Freeze-dried

Intended Use

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use.

BSL 1

ATCC determines the biosafety level of a material based on our risk assessment as guided by the current edition of *Biosafety in Microbiological and Biomedical Laboratories (BMBL)*, U.S. Department of Health and Human Services. It is your responsibility to understand the hazards associated with the material per your organization's policies and procedures as well as any other applicable regulations as enforced by your local or national agencies.

Certificate of Analysis

For batch-specific test results, refer to the applicable certificate of analysis that can be found at www.atcc.org.

Insert Information

Insert size (kb): 1.1000000000000001

Type of DNA: genomic

Genome: Homo sapiens

Target gene: 5-hydroxytryptamine (serotonin) receptor 1D α

Gene name: 5-hydroxytryptamine (serotonin) receptor 1D α

Gene product: 5-hydroxytryptamine (serotonin) receptor 1D α [HTR1D α]

Gene symbol: HTR1D α *

Contains complete coding sequence: Yes

Insert end: Sall

Vector Information

Construct size (kb): 9.5

Intact vector size: 8.300

Vector name: p3CLHygro

Type of vector: plasmid

Construction: p3CL, pHEBo (hygR)

Host range: vertebrate cells

Vector end: Sall

Cloning sites: HindIII; Sall

Markers: hygR; ampR

Polylinker sites: HindIII; Sall

Promoters: CMV

Replicon: pMB1; SV40

Terminator: bGH polyadenylation

Notes

Restriction digests of the clone give the following sizes (kb): BamHI--8.6,

0.92; BglII--7.8, 1.2, 0.48; HindIII--8.3, 0.92, 0.29; Sall--8.3, 1.2;

XhoI--5.2, 4.3; EcoRI--6.0, 2.4, 1.0.

- ATCC staff

Contains the complete coding sequence with only a few extra nucleotides. Insert contains the following restriction sites (approximate kb from the 5' end):

BamHI--0.09, 1.00; BglII--0.11, 0.58; HindIII--0.84, 1.10; XhoI--0.88. The order

of the major features of the plasmid is: ampR - EcoRI - SV40 ori - SV40 promoter

- XhoI - hygR - tk polyadenylation - TaqI - SV40 polyadenylation - EcoRI - CMV

promoter >- HindIII - Sall - insert >- Sall - bGH polyadenylation - PvuI.

- personal communication

Material Citation

If use of this material results in a scientific publication, please cite the material in the following manner: 5HT1Dalpha (ATCC 79987)

Warranty

The product is provided 'AS IS' and the viability of ATCC® products is warranted for 30 days from the date of shipment, provided that the customer has stored and handled the product according to the information included on the product information sheet, website, and Certificate of Analysis. For living cultures, ATCC lists the media formulation and reagents that have been found to be effective for the product.

While other unspecified media and reagents may also produce satisfactory results, a

change in the ATCC and/or depositor-recommended protocols may affect the recovery, growth, and/or function of the product. If an alternative medium formulation or reagent is used, the ATCC warranty for viability is no longer valid. Except as expressly set forth herein, no other warranties of any kind are provided, express or implied, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, manufacture according to cGMP standards, typicality, safety, accuracy, and/or noninfringement.

Disclaimers

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use. Any proposed commercial use is prohibited without a [license from ATCC](#).

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate or complete and the customer bears the sole responsibility of confirming the accuracy and completeness of any such information.

This product is sent on the condition that the customer is responsible for and assumes all risk and responsibility in connection with the receipt, handling, storage, disposal, and use of the ATCC product including without limitation taking all appropriate safety and handling precautions to minimize health or environmental risk. As a condition of receiving the material, the customer agrees that any activity undertaken with the ATCC product and any progeny or modifications will be conducted in compliance with all applicable laws, regulations, and guidelines. This product is provided 'AS IS' with no representations or warranties whatsoever except as expressly set forth herein and in no event shall ATCC, its parents, subsidiaries, directors, officers, agents, employees, assigns, successors, and affiliates be liable for indirect, special, incidental, or consequential damages of any kind in connection with or arising out of the customer's use of the product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, ATCC is not liable for

damages arising from the misidentification or misrepresentation of such materials.

Please see the material transfer agreement (MTA) for further details regarding the use of this product. The MTA is available at www.atcc.org.
