

# Human Cell Line Authentication: Standardization of STR Profiling Handbook

135-ANSI-STR™

## Description

This ANSI/ATCC consensus standard handbook details all aspects of human cell line authentication using STR analysis. The current gold standard for human cell line authentication is Short Tandem Repeats (STR) genotyping.

Authors: CT Korch, EM Hall, WG Dirks, GR Sykes, A Capes-Davis, T Barrett, JM Butler, RM Neve, RW Nims, DR Storts, F Tian, RM Nardone

## Product Details

- Language: English
- Format: Hardcopy
- Length: 240 Pages
- Size: 8 ½ X 11
- ASN-0002 Revised 2021-2022

**Shipping information:** Spiral-bound book

---

## Storage Conditions

**Storage conditions:** Room temperature

---

## Intended Use

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any

## Warranty

The product is provided 'AS IS' and the viability of ATCC® products is warranted for 30 days from the date of shipment, provided that the customer has stored and handled the product according to the information included on the product information sheet, website, and Certificate of Analysis. For living cultures, ATCC lists the media formulation and reagents that have been found to be effective for the product. While other unspecified media and reagents may also produce satisfactory results, a change in the ATCC and/or depositor-recommended protocols may affect the recovery, growth, and/or function of the product. If an alternative medium formulation or reagent is used, the ATCC warranty for viability is no longer valid. Except as expressly set forth herein, no other warranties of any kind are provided, express or implied, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, manufacture according to cGMP standards, typicality, safety, accuracy, and/or noninfringement.

---

## Disclaimers

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use. Any proposed commercial use is prohibited without a [license from ATCC](#).
