

pC195-4

98182™

Description

Organism: *Escherichia coli* (Migula) Castellani and Chalmers

Clone type: Clone

Host: *Escherichia coli* DH10B

Patent depository: This material was deposited with the ATCC Patent Depository to fulfill U.S. or international patent requirements. This material may not have been produced or characterized by ATCC. As an International Depository Authority (IDA) for patent deposits, ATCC is required to complete viability testing only at time of initial deposit of patent material. Patent deposits are made available on behalf of the Depositor when the pertinent U.S. or international patent is issued, but material may not be used to infringe the patent claims.

Patent number:

5,827,688

Technical information: ATCC Technical Services does not have technical information on patent deposits that are not produced or characterized by ATCC. Additional information can be found in the corresponding patent available from the patent holder or with the U.S. and/or international patent office.

Storage Conditions

Product format: Freeze-dried

Intended Use

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use.

 **BSL 1**

ATCC determines the biosafety level of a material based on our risk assessment as guided by the current edition of *Biosafety in Microbiological and Biomedical Laboratories (BMBL)*, U.S. Department of Health and Human Services. It is your responsibility to understand the hazards associated with the material per your organization's policies and procedures as well as any other applicable regulations as enforced by your local or national agencies.

Certificate of Analysis

For batch-specific test results, refer to the applicable certificate of analysis that can be found at www.atcc.org.

Insert Information

Insert size (kb): 1.3500000000000001

Type of DNA: cDNA

Genome: Escherichia coli

Contains complete coding sequence: Yes

Insert end: EcoRI; NotI

Vector Information

Construct size (kb): 5.880000114440918

Intact vector size: 4.529

Vector name: pNOTs

Type of vector: plasmid

Construction: HindI--0.96;BamHI--0.34,1.24,1.93;PvuII--0.66,4.44;ClaI--1.36,1.82;NaeI--1.49;SapI--2.14;NheI--2.89;NdeI--4.32

Vector end: EcoRI; NotI

Vector information:

Other unique sites: SapI, NheI, NdeI

signal peptide coding region: Ad VAI, ->, 1243-1358

signal peptide coding region: Ad VAI, ->, 1821-2135

Cloning sites: PstI; EcoRI; EcoRV; SnaB; NaeI; NotI; XhoI; XbaI; HpaI

Coding sequence: B-Lactamase, <-, 2891-4315

Enhancer: SV40 ori/enhancer, ->, 1-345

Initiation codon: AdTPL 656 956

Markers: ampR

MCS: PstI...HpaI, ->

Operator: IgG intron, ->, 956

Polylinker sites: PstI; EcoRI; EcoRV; SnaB; NaeI; NotI; XhoI; XbaI; HpaI

Replicon: M13 ori, ->, 1358-1821

Growth Conditions

Medium:

ATCC Medium 1315: LB Medium (ATCC medium 1065) with 100 mg/L
ampicillin

Temperature: 37°C

Notes

Restriction digests of the clone give the following sizes (kb): EcoRI--6.5;

EcoRI/NotI--4.6, 1.7.

- ATCC staff

Search of the database using additional sequence from this insert (C195_4)
revealed at least some identity with an mRNA for human FAN protein
(X96586,

Fasta). This clone is an isolate from the composite collection of clones of
ATCC

98079.

- personal communication

Insert contains sequence for a novel polypeptide with potential use in therapeutic, diagnostic and research utilities.

- U.S. Pat. 5,827,688 dated Oct 27,1998, 1998

Material Citation

If use of this material results in a scientific publication, please cite the material in the following manner: pC195-4 (ATCC 98182)

References and other information relating to this material are available at www.atcc.org.

Warranty

The product is provided 'AS IS' and the viability of ATCC® products is warranted for 30 days from the date of shipment, provided that the customer has stored and handled the product according to the information included on the product information sheet, website, and Certificate of Analysis. For living cultures, ATCC lists the media formulation and reagents that have been found to be effective for the product. While other unspecified media and reagents may also produce satisfactory results, a change in the ATCC and/or depositor-recommended protocols may affect the recovery, growth, and/or function of the product. If an alternative medium formulation or reagent is used, the ATCC warranty for viability is no longer valid. Except as expressly set forth herein, no other warranties of any kind are provided, express or implied, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, manufacture

according to cGMP standards, typicality, safety, accuracy, and/or noninfringement.

Disclaimers

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use. Any proposed commercial use is prohibited without a license from ATCC.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate or complete and the customer bears the sole responsibility of confirming the accuracy and completeness of any such information.

This product is sent on the condition that the customer is responsible for and assumes all risk and responsibility in connection with the receipt, handling, storage, disposal, and use of the ATCC product including without limitation taking all appropriate safety and handling precautions to minimize health or environmental risk. As a condition of receiving the material, the customer agrees that any activity undertaken with the ATCC product and any progeny or modifications will be conducted in compliance with all applicable laws, regulations, and guidelines. This product is provided 'AS IS' with no representations or warranties whatsoever except as expressly set forth herein and in no event shall ATCC, its parents, subsidiaries, directors, officers, agents, employees, assigns, successors, and affiliates be liable for indirect, special, incidental, or consequential damages of any kind in connection with or arising out of the customer's use of the product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the material transfer agreement (MTA) for further details regarding the use of this product. The MTA is available at www.atcc.org.

This material is cited in a US and/or international patent and may not be used to infringe the claims. Depending on the wishes of the Depositor, ATCC may be required to inform the Depositor of the party to which the material was furnished.
