Genomic DNA from *Mycoplasma hyorhinis* strain BTS-7 [ATCC 23234, D.G. ff. Edward PG 42, NCTC 10130]

qCRM-17981D™

**Description**

Quantified genomic DNA isolated from *Mycoplasma hyorhinis* strain BTS-7 (ATCC 17981). This quantitative external control was produced under an ISO 17034 accredited process for use in testing and calibration in ISO 17025 accredited laboratories, inclusivity/exclusivity testing, establishing limits of detection, verification or comparison of test methods, and other molecular applications.

- **Organism** *Mycoplasma hyorhinis*
- **Derived from** *Mycoplasma hyorhinis* BTS-7 [ATCC 23234, D.G. ff. Edward PG 42, NCTC 10130] (ATCC 17981)
- **Type strain** Yes
- **Specification range** ≥ 1 x 10⁶ to 1 x 10⁷ genome copies/μL

**Storage Conditions**

- **Product format** Frozen
- **Storage conditions** -70°C or colder

**Intended Use**

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use.

Certified Reference Material produced under an ISO 17034 accredited process.

**BSL 1**

ATCC determines the biosafety level of a material based on our risk assessment as guided by the
Certificate of Analysis

For batch-specific test results, refer to the applicable certificate of analysis that can be found at www.atcc.org.

Handling Procedures

1. Thaw the vial at room temperature.
2. Avoid exposing genomic DNA to repeated freeze-thaw cycles. Subjecting genomic DNA to repeated free/thaw cycles may result in degradation of the DNA and variations in copies/µL.

Quality Control Specifications

- **Integrity** Integrity of DNA was determined by electrophoresis on a 1% agarose gel stained with ethidium bromide.
- **Functional tests** Functional activity was confirmed by PCR amplification of the 16S ribosomal RNA gene.
- **Identity** Identity confirmed by sequencing of 16S ribosomal RNA gene.

Notes

This preparation of high molecular weight DNA is appropriate for use in the polymerase chain reaction (PCR)* process and other molecular biology applications.

*The PCR process is covered by patents owned by Hoffmann-La Roche Inc. Use of the PCR process requires a license.

Droplet Digital™ PCR is a trademark of Bio-Rad Laboratories, Inc.

Warranty

The product is provided 'AS IS' and the viability of ATCC® products is warranted for 30 days from the date of shipment, provided that the customer has stored and handled the product according to the information included on the product information sheet, website, and Certificate of Analysis. For living cultures, ATCC lists the media formulation and reagents that have been found to be effective for the product. While other unspecified media and reagents may also produce satisfactory results, a change in the ATCC and/or depositor-recommended protocols may affect the recovery, growth, and/or function of the product. If an alternative medium formulation or reagent is used, the ATCC warranty for viability is no longer valid. Except as expressly set forth herein, no other warranties of any kind are provided, express or implied, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, manufacture according to cGMP standards, typicality, safety, accuracy, and/or noninfringement.

Disclaimers

• This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use. Any proposed commercial use is prohibited without a license from ATCC.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate or complete and the customer bears the sole responsibility of confirming the accuracy and completeness of any such information.

This product is sent on the condition that the customer is responsible for and assumes all risk and responsibility in connection with the receipt, handling, storage, disposal, and use of the ATCC product including without limitation taking all appropriate safety and handling precautions to minimize health or environmental risk. As a condition of receiving the material, the customer agrees that any activity undertaken with the ATCC product and any progeny or modifications will be
conducted in compliance with all applicable laws, regulations, and guidelines. This product is provided 'AS IS' with no representations or warranties whatsoever except as expressly set forth herein and in no event shall ATCC, its parents, subsidiaries, directors, officers, agents, employees, assigns, successors, and affiliates be liable for indirect, special, incidental, or consequential damages of any kind in connection with or arising out of the customer's use of the product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the material transfer agreement (MTA) for further details regarding the use of this product. The MTA is available at www.atcc.org.
