

**ATCC medium: 1212 Yeast synthetic minimal medium**

Yeast Nitrogen Base w/o Amino Acids (BD 291940).....6.7 g  
D(+) glucose.....20.0 g  
Agar.....15.0 g  
Distilled water.....1.0 L

Filter-sterilize Yeast Nitrogen Base and glucose in 100 ml distilled water and add aseptically to previously autoclaved 900 ml agar-water solution.
