Description

Designation: HS-6 [CNCTC 8/89]
Deposited Name: *Streptococcus cricetus* Coykendall

Propagation

Medium
ATCC® Medium 44: Brain Heart Infusion Agar/Broth

Growth Conditions
Temperature: 37.0°C
Atmosphere: Under a gas mixture of 90% air, 10% CO₂

Propagation Procedure

1. Open vial according to enclosed instructions.
2. From a single tube of #44 broth (5 to 6 ml), withdraw approximately 0.5 to 1.0 ml with a Pasteur or 1.0 ml pipette and use to rehydrate the pellet.
3. Aseptically transfer the rehydrated pellet back into the broth tube. Mix well.
4. Use several drops of this suspension to inoculate an additional broth tube, a #44 agar slant and/or a plate.
5. Incubate the tubes and plate at 37°C for 48 hours in an atmosphere of 10% CO₂ or under microaerophilic conditions.

Notes

On #44 plates, colonies are entire, circular, convex, and smooth.
Depositor states that this organism grows well in screw capped tubes of Todd-Hewitt Broth or Fluid Thioglycollate Medium. The medium must be boiled to drive off oxygen before inoculation. For maintenance of the culture, it is essential to include a small amount of powdered CaCO₃ in the tubes. This organism tends to die out rapidly in the absence of CaCO₃ (i.e. within 48-72 hours). It is advisable to use a large inoculum (0.1 ml) when transferring culture.
Additional information on this culture is available on the ATCC web site at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.
