Designation: Boston 41501
Deposited Name: Pseudomonas aeruginosa (Schroeter) Migula
Product Description: Used in media and susceptibility testing, evaluation of Mueller-Hinton Agar, and as a quality control strain for Abbott, API, Autobac, BBL, bioMerieux Vitek, Micro-Media, MicroScan™, Roche Diagnostics, and Sensititre products.

Medium
ATCC® Medium 18: Trypticase Soy Agar/Broth

Growth Conditions
Temperature: 37°C
Atmosphere: Aerobic

Propagation Procedure
1. Open vial according to enclosed instructions.
2. Using a single tube of #18 broth (5 to 6 mL), withdraw approximately 0.5 to 1.0 mL with a Pasteur or 1.0 mL pipette. Rehydrate the entire pellet.
3. Aseptically transfer this aliquot back into the broth tube. Mix well.
4. Use several drops of the suspension to inoculate a #18 agar slant and/or plate.
5. Incubate the tubes and plate at 37°C for 24 hours.

Two colony types may be observed. They have been individually characterized and found to be identical. The predominant type is erose, rough, low convex, and approximately 2 mm in diameter. The secondary type is entire, glistening, smooth, and small. This strain produces both fluorescein and pyocyanin pigments. To prevent the proliferation of the second colony type, avoid passing this strain through broth for transfers. It is recommended to wash a slant with phosphate buffer and use that to inoculate further agar plates and/or agar flasks if needed.

Purified genomic DNA of this strain is available as ATCC® 27853D-5™. Certified Reference Material of this strain is available as ATCC® CRM-27853™.

Several Genbank accessions are available for this item:
2. Nucleotide (GenBank): AF094719 Pseudomonas aeruginosa strain ATCC 27853 16S ribosomal RNA gene, partial sequence.
3. Nucleotide (GenBank): M63957 Pseudomonas aeruginosa heat shock protein (groES and groEL) genes, complete cds.
6. Nucleotide (GenBank): U67855 Pseudomonas aeruginosa UDP-3-O-acyl-GlcNAc deacetylase (lpxC) gene, complete cds.
7. Nucleotide (GenBank): X65933 P. aeruginosa pa-1L gene for PA-I galactophilic lectin.

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the Biosafety in Microbiological and Biomedical Laboratories from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty
ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org.
