

Product Sheet

pEco63 plasmid in *E. coli* (ATCC® 31518™)

Please read this FIRST

Storage Temp.
**Store unopened
frozen vial at -
80°C or colder**

Biosafety Level
2

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: (ATCC® 31518™)

Shipping Information

Glycerol stock of *E. coli* containing the plasmid

Description

Full length clone of the hepatitis B virus, constructed by linearizing the genome with EcoRI and cloning it into the EcoRI site of the pBR325 vector.

Designation: pEco63 plasmid in *E. coli*

Notes

Restriction digests of the clone gave the following sizes (in kb): EcoRI - 6.1, 3.5; HindIII - 10.–ATCC Staff

Distributed In

Escherichia coli HB101

Insert Information

Insert size (kb): 3.2

Gene: Hepatitis B virus

DNA: Genomic

Insert ends: EcoRI

Vector Information

Total size of construct (kb): 9.2

Marker: ampR

Vector: pBR325

Vector type: plasmid

Vector size (kb): 5.996

Markers: ampR, tetR

Vector ends: EcoRI

Replicon: pMB1

Propagation

Transfer a loopful to a test tube containing 5 mL LB + 50 µg/mL of ampicillin broth. A loopful of culture can also be streaked on an LB + amp agar plate. Incubate cultures at 37°C. Isolate DNA using standard plasmid preparation procedures.

Growth Conditions

Temperature: 37°C

Medium

ATCC® Medium 1227: LB Medium (ATCC medium 1065) with 50 mcg/ml ampicillin

References and other information relating to this product are available online at www.atcc.org.

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
