

Product Sheet

pGH6 (ATCC® 31539™)

Please read this FIRST

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: pGH6 (ATCC® 31539™)

Shipping Information

Distributed: freeze-dried

Description

Designation: pGH6

Distribution Host:

Distribution host: Escherichia coli 294; GMBH K-12 294

Distribution host: Escherichia coli 294; GMBH K-12 294

Propagation

Growth Conditions

Temperature: 37.0°C

Medium

ATCC® Medium 1227: LB Medium (ATCC medium 1065) with 50 mcg/ml ampicillin

Vector Information

Size (kb): 4.5999999046325680

Vector: pGH6 (plasmid)

Promoters: Promoter lacUV5

Construction: pBR322, pKB268

Marker(s): ampR, tetR

Construct size (kb): 4.599999904632568

Features: marker(s): ampR, tetR

promoter: lacUV5

replicon: pMB1

References

References and other information relating to this product are available online at www.atcc.org.

Notes

pGH6 is available in a bacteria culture as ATCC 31539 or as purified plasmid DNA as ATCC 40012.

- ATCC staff

Expression vector. The EcoRI site is downstream of the lacUV5 promoters. This was constructed by inserting a 285 bp EcoRI fragment from pKB268 (containing 295 bp lac UV5 promoters separated by heterologous DNA) into the EcoRI site of pBR322. The EcoRI site distal to the tetR gene was destroyed.

- U.S. Pat. 4,342,832 dated Aug. 3, 1982

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: pGH6 (ATCC® 31539™)

Shipping Information

Distributed: freeze-dried

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org

Additional information on this culture is available on the ATCC web site at www.atcc.org.
