

Product Sheet

Halobacterium salinarum (ATCC® 33171™)

Please read this **FIRST**

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Halobacterium salinarum* (ATCC® 33171™)

Description

Designation: NRC 34002 [91-R6, CIP 104033, DSM 3754, NCIMB 764]
Deposited Name: *Halobacterium salinarum* (Harrison and Kennedy) Elazari-Volcani

Propagation

Medium
ATCC® Medium 217: Van Niel's yeast agar with 25% NaCl

Growth Conditions
Temperature: 35.0°C

Propagation Procedure

1. Open vial according to enclosed instructions.
 2. Using a single tube of #217 broth, withdraw 0.5 ml and rehydrate the pellet.
 3. Transfer the rehydrated pellet back into the tube of broth. Inoculate #217 slant(s). Inoculate plate(s) of a non-selective to test for contaminants.
 4. Incubate the tubes and plates at 35 to 37°C. Growth will take approximately 7 to 10 days to appear. Best growth is obtained in broth when the culture is incubated with vigorous shaking.

 2. Using a single tube of #217 broth, withdraw 0.5 ml and rehydrate the pellet.
 3. Transfer the rehydrated pellet back into the tube of broth. Inoculate #217 slant(s). Inoculate plate(s) of a non-selective to test for contaminants.
 4. Incubate the tubes and plates at 35 to 37°C. Growth will take approximately 7 to 10 days to appear. Best growth is obtained in broth when the culture is incubated with vigorous shaking.

Notes

Growth is evident by turbidity in the broth and the presence of smooth, shiny, entire, orange colonies on the slant(s). When examined microscopically the cells appear as irregular rods. This organism stains Gram negative.

This culture can be maintained on a tightly sealed slant at room temperature for up to one month

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet,
