

## Product Sheet

# pMMB206 in *Escherichia coli* (ATCC® 37808™)

### Please read this FIRST

Storage Temp.  
**Store unopened frozen vial at -80°C**

---

Biosafety Level  
**1**

### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: pMMB206 in *Escherichia coli* (ATCC® 37808™)

## Description

One of a series of wide host range, low copy number vectors that allow direct screening for recombinants. This vector contains sequences encoding lacIq, a tandem tac lacUV5 promoter region, and lacZalpha to allow direct screening by inactivation of alpha-complementation. It shows a low level of expression without induction. Sequencing has demonstrated that there are 3 stop codons in-frame with the truncated bla gene, terminating translation but permitting continued transcription and expression of the cat gene.

- Gene (Amst.) 97: 39-47, 1991.

**Designation:** pMMB206 in *Escherichia coli*

**Distribution Host:** *Escherichia coli* TB1

## Propagation

### Growth Conditions

**Temperature:** 37°C

### Medium

ATCC® Medium 1675: LB medium (ATCC medium 1065) with 10 mcg/ml Chloramphenicol

## Vector Information

**Size (kb):** 9.31

**Vector:** pMMB206 (plasmid)

**Promoters:** Promoter tac

**Construction:** pMMB190, pUC8

**Marker(s):** cmIR

**Construct size (kb):** 9.31

**Features: insert detection:** lacZ'

**marker(s):** cmIR

**promoter:** tac, lacUV5

**replicon:** oriV, oriT (IncQ)

**repressor gene:** lacIq

**transcription terminator:** rrnB

## Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

## ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

## Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for
