Designation: CDC 3022-85  
Deposited Name: Yersinia rohdei Aleksic et al.  
Product Description: Type strain.

Medium  
ATCC® Medium 3: Nutrient agar or nutrient broth  
ATCC® Medium 260: Trypticase soy agar/broth with defibrinated sheep blood

Growth Conditions  
Temperature: 26°C  
Atmosphere: Aerobic

Propagation Procedure  
1. Open vial according to enclosed instructions.  
2. Using a single tube of #3 broth (5 to 6 mL), withdraw approximately 0.5 to 1.0 mL with a Pasteur or 1.0 mL pipette. Rehydrate the entire pellet.  
3. Aseptically transfer this aliquot back into the broth tube. Mix well.  
4. Use several drops of the suspension to inoculate a #260 agar slant and/or plate.  
5. Incubate the tubes and plate at 26°C for 24 hours.

Colonies on #260 agar are irregular, smooth, glistening, and flat.

The following nucleotide sequences are available for this strain:  
1. Nucleotide (GenBank): AF366384 Yersinia rohdei 16S ribosomal RNA gene, partial sequence  
2. Nucleotide (GenBank): AX109664 Sequence 397 from Patent WO0123604

Additional information on this culture is available on the ATCC® web site at www.atcc.org.

References and other information relating to this product are available online at www.atcc.org.

Intended Use  
This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain  
If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Yersinia rohdei (ATCC® 43380™)

Notes  
Colonies on #260 agar are irregular, smooth, glistening, and flat.

The following nucleotide sequences are available for this strain:  
1. Nucleotide (GenBank): AF366384 Yersinia rohdei 16S ribosomal RNA gene, partial sequence  
2. Nucleotide (GenBank): AX109664 Sequence 397 from Patent WO0123604

Biosafety Level: 1  
Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the Biosafety in Microbiological and Biomedical Laboratories from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty  
ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers  
This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate. This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from...
