## Geobacillus

### thermoleovorans (ATCC®)

43514™)

Please read this **FIRST**

#### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

#### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Geobacillus thermoleovorans* (ATCC® 43514™)

American Type Culture Collection

#### Description

Designation: BI-1

Deposited Name: *Bacillus thermoleovorans* Zarilla and Perry

#### Propagation

##### Medium

ATCC® Medium 1554: Mineral salts (L-salts) for thermophiles

##### Growth Conditions

Max Temperature: 60.0°C

Min Temperature: 50.0°C

##### Propagation Procedure

1. Open vial according to enclosed instructions.
2. Using a single tube of #1554 broth (5 to 6 ml), withdraw approximately 0.5 to 1.0 ml with a Pasteur or 1.0 ml pipette. Rehydrate the entire pellet.
3. Aseptically transfer this aliquot back into the broth tube. Additional broth tubes may be inoculated with 0.5ml each from the initial broth. It is advisable to establish good growth in broth before making transfers to agar.
4. Incubate tubes statically at 50-60°C. Growth should occur in 48 to 72 hours.

#### Notes

This strain will grow well on Tryptic Soy Broth and Agar, but #1554 is recommended by the depositor. On #1554 plates, colonies are opaque, round, and small.

#### References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

#### Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

#### ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

#### Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org)
