**1**

#### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

#### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *human papilloma virus type 11* (ATCC® 45151D™)

#### Shipping Information

200 ng DNA (dried)

#### Description

This clone contains the full length viral genome of HPV-11 inserted into the BamHI site of pBR322. It was constructed by linearizing the virus at the unique BamHI site (nt 7072).

Note: The depositor has requested that this deposit be distributed exclusively for scientific and not for commercial purposes.

**Designation:** HPV-11 purified plasmid DNA

#### Notes

Restriction digests of the clone gave the following sizes (in kb): BamHI - 7.9, 4.4 ; HindIII - 9.4, 2.9 ; PstI - 4.7, 1.8, 1.5, 1.3, 1.1, 0.8 (doublet), 0.45.

ATCC Staff

#### Insert Information

**Insert size:** 7.931

**Genome:** Human papilloma virus type 11 genome, full length

**Tissue:** laryngeal papilloma

**Type of DNA:** genomic

**Insert ends:** BamHI

**DNA Seq. Acc.:** M14119

#### Vector Information

**Size of construct (kb):** 12.3

**Excise insert:** BamHI

**Markers:** ampR

**Name of vector:** pBR322

**Intact vector size (in kb):** 4.363

**Type of vector:** plasmid

**Vector ends:** BamHI

**Replicon:** pMB1

**Marker:** ampR, tetR

#### Propagation

Rehydrate plasmid with water or TE buffer. Plasmid can be transformed into a suitable *Escherichia coli* host using standard protocols and then grown on LB + 50 µg/mL of ampicillin agar. Incubate cultures at 37°C. Isolate DNA using standard plasmid preparation procedures.

#### References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

#### Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

#### ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

### Disclaimers

---

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org)

Additional information on this culture is available on the ATCC web site at [www.atcc.org](http://www.atcc.org).
