Description

Designation: Spirillum 5175 [DSM 6946]

Deposited Name: *Sulfurospirillum deleyianum* Schumacher et al.

Propagation

Medium

ATCC® Medium 1842: Sulfurospirillum medium

Growth Conditions

Temperature: 30.0°C

Atmosphere: Anaerobic

Propagation Procedure

1. **Open the vial according to the enclosed instructions.**
2. Rehydrate the entire pellet using 0.5 to 1.0 ml of #1842 broth.
3. Aseptically transfer this aliquot back into the broth tube.
4. Use several drops of the suspension to inoculate plates to check for purity and anaerobic growth.
5. **Fill the tube with the rehydrated culture to capacity and seal with a screw cap. Incubate at 30°C for 3-4 days. Incubate the plate used to test for purity at 30°C aerobically. The plate to test for anaerobic growth should be incubated in an anaerobic jar at 30°C.**

Notes

Use a small sterile screw cap test tube to grow the culture initially. As the culture grows, it can be transferred to increasingly larger volumes. Always use a large inoculum (10 to 20%) to obtain the best growth.

No growth should occur on the plate incubated aerobically.

Additional information on this culture is available on the ATCC® web site at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.
