Description

Designation: TH2 [DSM 5348]
Deposited Name: *Metallosphaera sedula* Huber et al.
Product Description: Type strain.

Propagation

Medium

ATCC® Medium 1256: Sulfolobus medium

Growth Conditions

Temperature: 70°C
Atmosphere: Aerobic

Propagation Procedure

1. Prepare tube to be inoculated by adding 0.1 mL of the 5% Ferric sulfate solution to each 5-10 mL of broth.
2. Allow vial to thaw at room temperature. Transfer the entire contents of the thawed vial into a single tube (5 - 6 mL) of #1256 broth.
3. Additional tubes can be inoculated by transferring 0.5 mL of the primary tube. Mix well.
4. Use several drops of the suspension to inoculate a plate. Incubate the plate at 37°C as a contamination check.
5. Incubate the tubes at 70°C for 48 to 72 hours.

Notes

Cells are regular cocci in singles and pairs. Growth at 37°C means that contamination has occurred. Purified genomic DNA of this strain is available as ATCC® 51363D-5. Additional information on this culture is available on the ATCC® web site at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.
