

Product Sheet

pHU10 plasmid in *E. coli* (ATCC® 57002™)

Homo sapiens

Please read this FIRST

Storage Temp.
**Store unopened
freeze-dried vial
at 4°C**

Biosafety Level
1

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Homo sapiens* (ATCC® 57002™)

Shipping Information

Freeze-dried *E. coli* containing the plasmid

Description

This clone contains a 2.8 kb human genomic DNA fragment cloned into the HindIII site of pBR322. The insert fragment maps to chromosome 13q12.3; D13S6. An unpublished RFLP is detected by this probe when genomic DNA is digested with EcoRI. The published RFLP is revealed with XmnI. A multiple site polymorphism is detected with XmnI and EcoRI, with a common band of 6.0 and alleles of 8.5 and 10 kb.

Designation: pHU10 plasmid in *E. coli*

Notes

Restriction digests of the clone gave the following sizes (in kb): HindIII - 4.4, 2.8 ; PstI - 7.2.
-ATCC Staff

Distributed In

Escherichia coli K12

Insert Information

Insert size (kb): 2.8

Gene: DNA segment, single copy

DNA: genomic DNA

Insert ends: HindIII

Vector Information

Total size of construct (kb): 7.2

Marker: ampR

Enzyme to excise insert: HindIII

Vector: pBR322

Vector type: plasmid

Vector size (kb): 4.363

Markers: ampR

Vector ends: HindIII

Propagation

1. Open vial according to instructions.
2. Aseptically add 0.3 to 0.4 mL of liquid medium to the freeze-dried pellet and mix well. Transfer 100 μ L to a test tube containing 5 mL LB+ ampicillin (50-100 μ g/mL). A loopful of culture can also be streaked on an agar plate of the same. Incubate cultures at 37°C.
3. Isolate DNA using standard plasmid preparation procedures.

Growth Conditions

Temperature: 37°C

Medium

ATCC® Medium 1227: LB Medium (ATCC medium 1065) with 50 mcg/ml ampicillin

References

References and other information relating to this product are available online at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC

Shipping Information

Freeze-dried *E. coli* containing the plasmid

lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org

Additional information on this culture is available on the ATCC web site at www.atcc.org.
