

Product Sheet

Thiomicrospira chilensis (ATCC® 700858™)

Please read this FIRST

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Thiomicrospira chilensis* (ATCC® 700858™)

Description

Designation: DSM 12352 [Ch-1, Chile-1]
Deposited Name: *Thiomicrospira chilensis* Brinkhoff et al.

Propagation

Medium
ATCC® Medium 2228: *Thiomicrospira pelophila* medium

Growth Conditions

Temperature: 30.0°C
Atmosphere: Aerobic

Propagation Procedure

1. Open vial according to enclosed instructions.
2. Withdraw 0.5 ml of the recommended broth from a single test tube (5 to 6 ml) and rehydrate the vial contents.
3. Aseptically transfer this aliquot back into the broth. Additional broth tubes may be inoculated with 0.5 ml each from the suspension. A slant and a plate of the recommended medium may be inoculated with 0.2 ml each. A plate of non-selective medium such as nutrient agar may be streaked to check for aerobic contamination.
4. Incubate tubes and plates at 20°C.
5. In 3 to 6 days, growth is evident when the broth culture changes from blue to yellow. Growth can also be detected when the broth culture is examined by phase and by colonies on the agar surfaces. No growth should occur on the non-selective plate. Colonies are very small (pinpoint) and white. Cells are small rods that occur singly and in pairs, and are very motile.

Notes

For best growth use freshly prepared media or media which has been stored under anaerobic conditions after preparation. Perform transfers under anaerobic conditions or minimize exposure to oxygen.
Additional information on this culture is available on the ATCC web site at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC
