

Product Sheet

Neosporiococcus excentricum (ATCC® 74109™)

Please read this FIRST

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Neosporiococcus excentricum* (ATCC® 74109™)

Description

Strain Designation: HZ-1236/437

Depositor: Coors BioTech, Inc., SA Orndorff, Coors BioTech, Inc.

Isolation:

mutant derived from ATCC 40335

Propagation

Growth Conditions

Temperature: 30.0°C

Duration: axenic

Protocol: This strain is routinely shipped as a frozen stabilate. See general instructions for thawing and storage of frozen material before proceeding. Thaw the ampule and aseptically transfer the entire contents to 5 ml of ATCC medium 200 in a 16 x 125 mm screw-capped test tube. DO NOT distribute the thawed material to a larger volume of medium. It is essential to first establish the culture in a small volume. Screw the cap on tightly, loosen it by one half turn, and incubate the tube on a horizontal slant (5-15 degree slant) at 30C. The culture should be ready to subculture in 5-7 days. To subculture, crew the cap on tightly, agitate the tube vigorously, and aseptically transfer a 0.1 ml aliquot to 5 ml of ATCC medium 2085. Incubate as above.

Medium

ATCC® Medium 2085: YEP medium

References

References and other information relating to this product are available online at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org
