Description

This is an expression vector containing two multiple cloning sites: the first being within the lacZ gene, and the second being flanked by an RSV enhancer-MMTV LTR promoter at one end and splicing and polyadenylation signals at the other. The first site was designed for insertion of a marker selectable in mammalian cells, and the second for the sequence to be expressed. The first site permits detection of inserts by alpha complementation. The order of major features in this plasmid is: NotI/EcoRI 5 RSV enhancer MMTV LTR 3 ClaI/MCSII/Bgl II splicing polyadenylation NsiI 3 lacZ EcoRI/MCSI/HindIII 5 lacZ pMB1 ori ampR.

Designation: pM

Propagation

1. Open vial according to instructions. 2. Aseptically add 0.3 to 0.4 mL of liquid medium to the freeze-dried pellet and mix well. Transfer 100 μ L to a test tube containing 5 mL LB+ ampicillin (50-100 μ g/mL). A loopful of culture can also be streaked on an agar plate of the same. Incubate cultures at 37°C. 3. Isolate DNA using standard plasmid preparation procedures.

Growth Conditions

Temperature: 37.0°C

Medium

ATCC® Medium 1227: LB Medium (ATCC medium 1065) with 50 mcg/ml ampicillin

Vector Information

Size (kb): 5.1690001487731930

Vector: pM (plasmid)

Promoters: Promoter lac

Construction: pUC19, pMAMneo, SV40 early splicing region

Marker(s): ampR

Construct size (kb): 5.169000148773193

Features: insert detection: lacZ'

marker(s): ampR

promoter: lac, MMTV LTR

replicon: pMB1

terminator: SV40

enhancer: RSV

References

References and other information relating to this product are available online at www.atcc.org.

Notes

Restriction digests of the clone gave the following sizes (in kb): PvuI 3.4, 1.8; EcoRI 2.6, 2.6; Bgl II 5.2; ClaI 4.1, 1.1. ATCC Staff

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
