

Product Sheet

## pJQ200 (ATCC® 77482™)

Please read this FIRST

### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: pJQ200 (ATCC® 77482™)

### Shipping Information

Distributed: freeze-dried

### Description

**Designation:** pJQ200  
**Distribution Host:**  
Distribution host: *Escherichia coli* DH10B

### Propagation

**Growth Conditions**  
**Temperature:** 37.0°C  
**Medium**  
ATCC® Medium 1885: LB medium (ATCC medium 1065) with 15 mcg/ml gentamycin

### Vector Information

Size (kb): 4.9000000953674320  
DESCRIPTION OF VECTOR:  
Intact vector size: 4.900  
Type of vector: plasmid  
Cloning sites: SmaI  
Polylinker sites:  
Construction: P15A ori, sacB, RP4, gtmR  
Host range: broad host range; *Escherichia coli*  
Features (with orientation and position when available):  
replicon: oriV, p15A  
other: traJ, <-  
marker(s): sacB, ->  
replicon: oriT  
marker(s): gtmR, <-  
Vector: pJQ200 (plasmid)  
Construction: P15A ori, sacB, RP4, gtmR  
Marker(s): sacB, gtmR  
Construct size (kb): 4.900000095367432  
Features: marker(s): gtmR  
marker(s): sacB  
other: traJ  
replicon: oriT  
replicon: oriV, p15A

### References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

### Notes

Restriction digests of the clone give the following sizes (kb): SmaI--5.2;  
EcoRI--5.2; HindIII--5.2.  
- ATCC staff

Suicide vector permitting gene replacement and mobilization into a wide range of Gram negative bacteria. Allows positive selection for integration.  
- Gene 127: 15-21, 1993

Replicates only in enterobacteria, and so functions as a suicide vector in other Gram negative hosts.  
- Gene 127: 15-21, 1993

When induced by media containing 5% sucrose, sacB is lethal in a wide range of Gram negative bacteria, and thus permits selection for loss of the vector.  
- Gene 127: 15-21, 1993

A single BglII site within the gentamicin resistance gene (gtmR) allows insertion of other resistance genes (e.g. as a BamHI cassette).

## Product Sheet

# pJQ200 (ATCC® 77482™)

### Please read this FIRST

### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: pJQ200 (ATCC® 77482™)

### Shipping Information

Distributed: freeze-dried

- Gene 127: 15-21, 1993

The order of the major features of the plasmid is: gtmR - Smal - P15A - traJ - oriT - sacB.

- Gene 127: 15-21, 1993

### Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

### ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

### Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org)

Additional information on this culture is available on the ATCC web site at [www.atcc.org](http://www.atcc.org).
