### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: p16R1 (ATCC® 87120™)

### Shipping Information

Freeze dried plasmid in *E. coli*

### Description

This is a shuttle vector allowing transformation of a broader range of Mycobacterial species and at a higher efficiency than the kanamycin resistance conferring shuttle vectors pBAK14, pYUB12 and pMV251. Mycobacteria containing this vector should be grown on 7H9/7H11 media plus 50 ug/mL hygromycin. It was constructed by inserting the pAL5000 origin of replication into the BamHI site of pIJ963, followed by subsequent loss of 1 1.9 kb fragment including the ampR region. ---Microbiology (Reading) 140: 133-138, 1994  
Designation: p16R1

### Propagation

1. Open vial according to instructions. 2. aseptically add 0.3 to 0.4 mL of liquid medium to the freeze-dried pellet and mix well. Transfer 100 uL to a test tube containing 5 mL LB+ hygromycin (200 ug/mL). A loopful of culture can also be streaked on an agar plate of the same. Incubate cultures at 37<sup>0</sup> C. 3. Isolate DNA using standard plasmid preparation procedures.

#### Growth Conditions

Temperature: 37.0°C

#### Medium

ATCC® Medium 1952: LB medium (ATCC medium 1065) with 200 mcg/ml hygromycin B

### Vector Information

Size (kb): 5.0999999046325680

Vector: p16R1 (plasmid)

Construction: pAL5000, pIJ963

Marker(s): hygR

Construct size (kb): 5.099999904632568

Features: marker(s): hygR

replicon: pAL5000

restriction site: KpnI

### References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

### Notes

Restriction digests of the clone gave the following sizes (in kb): EcoRI 2.7, 2.4 ; KpnI 5.1 ; BgIII 4.0, 1.2.

### Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the Biosafety in Microbiological and Biomedical Laboratories from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

### ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

### Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.
