Description

Plasmid useful for vector construction and contains a gentamicin acetyltransferase (aacC1, gmR) cassette flanked by multiple cloning sites duplicated in tandem orientation. This was constructed by cloning a 0.8 kb mLuI fragment containing the complete coding sequence for gentamycin acetyltransferase (aacC1) from Tn1696 into the mLuI site of the sBSL98 phagemid. The sequence for the aacC1 gene has Genbank accession number X15852.

Designation: pBSL141

Propagation

Transfer a loopful to a test tube containing 5 mL LB+50mg/mL of ampicillin broth. A loopful of culture can also be streaked on an LB + amp agar plate. Incubate cultures at 37° C. Isolate DNA using standard plasmid preparation procedures.

Growth Conditions

Temperature: 37.0°C

Medium

ATCC® Medium 1227: LB Medium (ATCC medium 1065) with 50 mcg/ml ampicillin

Vector Information

Size (kb): 3.8859999179840090

Vector: pBSL141 (phagemid)

Promoters: Promoter for in vitro transcription T7 (phi10)

Construction: pBluescript

Marker(s): ampR, gtmR

Construct size (kb): 3.885999917984009

Features: marker(s): ampR

promoter for in vitro transcription: T7 (phi10)

replicon: f1

replicon: pBM1

MCS: KpnI...SacI MluI

MCS: MluI KpnI...SacI

coding sequence: aacC1 (gtmR)

References

References and other information relating to this product are available online at www.atcc.org.

Notes

Restriction digests of the clone gave the following sizes (in kb): mLuI 3.1, 0.8 ; BamHI 2.1, 1.0 ; NotI 2.9, 1.0.
ATCC Staff

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
