

Product Sheet

pGFLEX plasmid in *E. coli* (ATCC® 87629™)

Please read this **FIRST**

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: pGFLEX plasmid in *E. coli* (ATCC® 87629™)

Description

Designation: pGFLEX plasmid in *E. coli*

Distribution Host:

Distribution host: *Escherichia coli* HB101 (ATCC 33694)

Propagation

Growth Conditions

Temperature: 37°C

Medium

ATCC® Medium 1227: LB Medium (ATCC medium 1065) with 50 mcg/ml ampicillin

Vector Information

Size (kb): 6.143

Intact vector size: 6.143

Type of vector: phagemid

Cloning sites: ClaI NotI Apl

Polylinker sites: BamHI EcoRI SmaI SalI XhoI NotI Apal

Other unique sites: BglII BssHI EcoRV PstI PvuI Scal SpeI

Construction: pUC19, pGPI-2, pIC-20H

Host range: mammalian cells; *Escherichia coli*

Features (with orientation and position when available):

Promoter: CMV, ->, 1-686

Promoter: lac, ->, 687-847

Leader Peptide: beta-gal leader sequence, 848-886

Coding Sequence: human GST pi, ->, 887-1516

Other: thrombin cleavage site, 1517-1524

MCS: BamHI...Apal, 1525-1566

Stop Codons: TGA, 1570-1572

Replicon: f1 ori, 1895-2413

Promoter for Expression: SV40, ->, 2466-2800

Replicon: SV40 ori, 2669-2754

Coding Sequence: Neo, ->, 2836-3630

Terminator: SV40 polyadenylation, 3804-3939

Replicon: pMB1, 4373-4373

Marker(s): ampR, <-, 5131-5991

References

References and other information relating to this product are available online at www.atcc.org.

Notes

Restriction digests of the clone give the following sizes (kb): PstI-6.2; XhoI-4.1, 2.1; SalI-2.4, 2.1, 1.6. Recommendation for verification: StuI-4.84, 1.30; SalI-2.4, 2.18, 1.56; PstI-6.14; NotI-6.14.

High level of expression in *E. coli*, cos and other mammalian cultured cell lines.
- personal communication

The pGFLEX expression system allows production of target proteins fused to either the N or C terminus of the GST pi protein and provides rapid purification of target proteins as either GST fusions or native proteins after cleavage with thrombin.
- Gene 193: 229-237, 1997

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

pGFLEX plasmid in *E. coli* (ATCC® 87629™)

Please read this FIRST

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: pGFLEX plasmid in *E. coli* (ATCC® 87629™)

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org

Additional information on this culture is available on the ATCC web site at www.atcc.org.
