Description

Designation: BisB5

Deposited Name: *Rhodopseudomonas palustris* (Molisch) van Niel

Propagation

Growth Conditions

Temperature: 26-30°C

Atmosphere: Anaerobic under a tungsten lamp

Propagation Procedure

1. Open vial according to enclosed instructions.
2. Put 6 to 8 ml of ATCC® medium #2657 into a 13x100 mm screw cap test tube (small). Add 5.0% (stock concentration) Co-enzyme M (2 ml/100 ml medium) and then fill the test tube to capacity with additional medium #2657. Seal the test tube with a screw cap.
3. Let the tube sit at room temperature for 30 minutes before inoculating it with the culture.
4. Allow the frozen vial to thaw at room temperature. Remove 0.5 ml of broth from the test tube and then transfer the entire aliquot from the vial into the screw cap test tube and close tightly. Trypticase Soy Agar may also be inoculated.
5. Incubate the culture at 26-30°C under a tungsten lamp. The culture should be 10 to 12 inches from the light source. If applicable, incubate the Trypticase Soy Agar in the dark.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate. This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org
