Description

Designation: 1001728
Deposited Name: *Escherichia coli*
Product Description: NDM-1 Reference Strain

Propagation

Medium

ATCC® Medium 3: Nutrient agar or nutrient broth
ATCC® Medium 2901: Nutrient Medium + 25ug/ml Imipenem

Growth Conditions

Temperature: 37°C
Atmosphere: Aerobic

Propagation Procedure

1. Open vial according to enclosed instructions.
2. Using a single tube of #3 broth, withdraw approximately 0.5 - 1 mL with a pipette. Rehydrate the entire pellet.
3. Aseptically transfer this aliquot back into the broth tube. Mix well.
4. Use several drops of this suspension to inoculate a #3 agar plate or slant.
5. Incubate the tubes and plate at 37°C for 24 hours.
6. Once growth occurs, use several colonies to inoculate a plate of #2901 agar. Only colonies carrying the NDM plasmid will grow, so pick several colonies for the transfer.
7. Incubate the plate at 37°C for 24 hours.
8. Once the culture has recovered, all future growth should be on #2901 agar or broth to prevent loss of the NDM plasmid.

Notes

Resistant to a broad range of antibiotics.

bla_{KPC} negative by PCR.

bla_{NDM} positive by PCR.

Additional information on this culture is available on the ATCC® web site at www.atcc.org.

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been
