

Nucleic Acid Product Sheet

Human genomic DNA (NCI-BL2126) (ATCC® CCL-256.1D™)

Please read this FIRST

 Storage Temp.
-20°C or colder in a manual defrost freezer. Avoid freeze-thawing.

 Biosafety Level
2

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Human genomic DNA (NCI-BL2126) (ATCC® CCL-256.1D™)

Description

Source: *Homo sapiens*

Designation: Human genomic DNA (NCI-BL2126)

Description: High molecular weight genomic DNA isolated from the NCI-BL2126 human Epstein-Barr virus (EBV) transformed B lymphocyte cell line.

Note: Formulation: 1X TE buffer (10 mM Tris-HCL, 1 mM EDTA, pH 8.0)

Concentration: See lot-specific information

Lot Number: See lot-specific information

Cell Line Description: The NCI-BL2126 cell line (CCL-256.1) was established from peripheral blood of a 65 year-old Caucasian male with lung cancer.

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Quality Control Information

DNA Quality Control Information*:

Test	Specification
Electrophoresis DNA - M.W.	≥ 48 kb (or higher than uppermost band of the high MW DNA ladder)
Electrophoresis RNA - Content	No visible RNA detected in the agarose gel
STR	Identical STR profile to cell line source
DNA Concentration (PicoGreen® method)	Report results
Purity (A260/A280)	Ratio 1.7 to 2.1
Total DNA amount (PicoGreen® method)	≥ 2 µg
Electrophoresis DNA - Digestion	Verified by restriction enzyme digestion

*Please consult the Certificate of Analysis for lot-specific test results.

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.
