

Product Sheet

Cryptococcus neoformans (ATCC® CNKO-PS™)

Please read this **FIRST**

Storage Temp.
Frozen: -80°C or colder
Freeze-Dried: 2°C to 8°C
Live Culture: See Propagation Section

Biosafety Level
2

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Cryptococcus neoformans* (ATCC® CNKO-PS™)

Description

Strain Designation: CnKOv1.0

Deposited Name: *Cryptococcus neoformans* (Sanfelice) Vuillemin

Genotype: MATalpha cnx####:natR

Propagation

ATCC® Medium 1069: YPAD medium

Growth Conditions

Temperature: 25°C

Recommended Procedure

1. Check the plates for any cracks or leakage upon receipt.
2. For testing or sampling, before peeling off the adhesive cover from a plate, spin the plate briefly (2-3 minutes) in a centrifuge at 750Xg, if possible. Then peel the adhesive cover off the plate surface carefully to avoid cross contamination between wells. Keep the plates frozen before peeling off the adhesive cover sheet.
3. For testing viability, pipette 2-5 µL of each strain and streak it on YPAD or YEPD agar plate, with or without nourseothricin (100 µg/mL), and incubate at 25°C to 30°C for two days or longer.
4. Please note that some strains may grow slowly and may require longer than the normal incubation time.

Notes

FTP Site For CNKO-PSTM Strain Data Files

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.
