Description

Strain: potyvirus monoclonal antiserum [PTY10 cross-reactive monoclonal antiserum]

Classification: Potyvirus

Depositor: R Jordan

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:

Host Plant from which Virus was purified: Various

Test Animal Used: Mouse

Comments

Monoclonal antibodies are listed by antigen-specificity, as opposed to immunogen. PTY 10 recognizes a potyvirus group-common, non-virion surface-located, conformation-independent, trypsin-resistant-core protein epitope located on at least 18 of 30 tested potyviruses, including but not necessarily limited to: potato virus Y, pepper mottle, tobacco etch, tobacco vein mottling, turnip mosaic (7 of 8 strains), tulip breaking, sugarcane mosaic, asparagus 1, cowpea aphid-borne mosaic, sweet potato latent, watermelon mosaic 2, papaya ringspot, zucchini yellow mosaic, and plum pox potyviruses. Reacts best with coat protein subunit rather than intact virus. Vial contains 70 ul ascitic fluid and should be stored at -20°C or lower.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org
