### Description

pENTR\_L4R1\_PhIF-pCYC1MIN contains an ATCC® synthetic promoter flanked by two Gateway® recombination att sites (attL4 and attR1). The promoter consists of the TetR homolog PhIF operator sequence (ATGATACGAAACGTACCGTATCGTTAAGGT) and a yeast CYC1 minimal promoter. It can be activated by the ATCC synthetic activator PhIF-VP64 (ATCC® SB-1099™). This promoter is part of the ATCC® Synthetic Biology Yeast Tool Kit (Detailed information is described in the ATCC® [Synthetic Biology Solutions User Guide](#)). Gateway® is a registered trademark of Thermo Fisher Scientific

**Designation:** pENTR\_L4R1\_PhIF-pCYC1MIN

### Insert Information

**Insert size (kb):** 0.18

#### Suggested primers for sequencing:

M13 Forward: 5'- GTTTCCCAGTCACGAC - 3'

M13 Reverse: 5'- CAGGAAACAGCTATGAC - 3'

### Vector Information

**Total size of construct (kb):** 2.955

**Vector type:** Entry vector

**Markers:** kanR

### Propagation

Before opening the vial, centrifuge at 6,000 x g for 30 seconds. Add 30 µL of Molecular Grade Water and incubate the vial at 4°C overnight to dissolve the DNA. Each vial contains 2-3 µg plasmid DNA (measured by PicoGreen® dsDNA quantitation assay).

### References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

### Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the Biosafety in Microbiological and Biomedical Laboratories from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

### ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

### Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org)

Additional information on this culture is available on the ATCC web site at [www.atcc.org](http://www.atcc.org).
