

Product Sheet

# Human rhinovirus 30 (ATCC® VR-1140™)

Please read this **FIRST**

---

## Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

## Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Human rhinovirus 30 (ATCC® VR-1140™)

## Description

**Strain:** 106F [V-109-002-021]  
**Classification:** Picornaviridae, Rhinovirus, Human rhinovirus A  
**Original Source:**  
Presumed from human throat washings  
**Depositor:** NIH/NIAID

## Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

## Propagation

**Propagation Host:**  
HeLa cells (ATCC CCL-2); WI-38 cells (ATCC CCL-75)  
**Host of Choice:** WI, HeLa cells  
**Host Range:** HD, HEK, stable human cell cultures  
human diploid cells; human embryonic kidney cells; human cell lines  
**Effect on Host:**  
Yes, in vitro effects: Cytopathic effects in tissue culture  
CPE

## Comments

Human Rhinoviruses differ from enteroviruses by their instability at low pH (3.0 - 5.0). Optimal conditions of growth occur at pH 6.8 - 7.3 in roller cultures incubated at approximately 33C. Lot 1 prepared in mycoplasma-positive cells; subsequent lots prepared in mycoplasma-free cells from mycoplasma-free stock. No hemagglutinins are demonstrated. For classification see Collaborative Report on Rhinoviruses, Nature (Lond.), 213: 761, 1967. Also for types 13-17: Panel for Picornaviruses, Melnick, J. et al., Science 141: 153, 1963

## References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

## Key Abbreviations

CPE, cytopathic effect  
HD, human diploid cells  
HE, human embryo  
HEK, human embryo kidney  
HeLa, human cervical carcinoma cells  
HK, human kidney  
TCID<sub>50</sub>, median tissue culture infective dose  
WI, human embryonic lung cell line  
WI-38, human embryonic lung (diploid) cells

## Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

## ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media

### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Human rhinovirus 30 (ATCC® VR-1140™)

may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

### Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org)

Additional information on this culture is available on the ATCC web site at [www.atcc.org](http://www.atcc.org).
