Description

Strain: TRVL 11573 [V-544-001-522]

Classification: Arenaviridae, Arenavirus, New World Arenaviruses

Common Name: Tacaribe virus

Original Source:

Presumed from brain of bat (*Artibeus literatus palmarum*) Port of Spain, British West Indies, 1956

Depositor: NIH/NIAID

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:

mouse, 1 day old, i.c. inoculation

Host of Choice: M (1 day, i.c.)

Host Range: nbM (i.c., i.p.), M (i.c.), bat, CE (y.s.), MKK, HaK cells

newborn mouse, i.c. or i.p. inoculation; mouse, i.c. inoculation; bat, chicken embryo, yolk sac, monkey kidney cells; hamster kidney cells

Effect on Host:

Yes, in vivo effects: Paralysis, convulsions, death

Paralysis, convulsions, death

Comments

VR-1272 has been reported to be contaminated with a lactate dehydrogenase elevating virus. Can be passed serially (i.c.) in adult mice, animals become ill in 5-7 days and die within 24 hours with evidence of CNS involvement. The natural clinical illness in bats resembles that produced by rabies virus. Antigenic relationship to Junin virus of Argentinian and to Machupo virus of Bolivian hemorrhagic fevers has been demonstrated by means of the CF test.

References

Key Abbreviations

CE, chicken embryo

CF, complement fixation

CNS, central nervous system

HaK, hamster kidney

i.c., intracerebral

i.p., intraperitoneal

LD[50], median lethal dose

M, mouse

Mb, mouse brain

MkK, monkey kidney

nbM, newborn mouse

USDA, United States Department of Agriculture

y.s., yolk sac

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org
