

## Product Sheet

# Human adenovirus 36 (ATCC® VR-1610™)

### Please read this FIRST

---

### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Human adenovirus 36 (ATCC® VR-1610™)

American Type Culture Collection

Or contact your local distributor

### Description

Strain: 275

Classification: *Adenoviridae*, *Mastadenovirus*, Human adenovirus D

Original Source: Feces from human diabetic; derived from ATCC® VR-913™ following treatment to remove mycoplasma contamination.

Depositor: R. Wigand, ATCC

### Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

### Propagation

Propagation Host:

A549 (ATCC® CCL-185™)

Effect on Host:

CPE, typical adenovirus rounding beginning in clusters

Medium:

EMEM (ATCC® 30-2003) + 2% FBS (ATCC® 30-2020)

Growth Conditions

**Recommendations for Infection:** For best results, plate cells 24-48 hours in advance. Infect at about 80% confluence using a multiplicity of infection (MOI) of 0.1 to 1.0. Incubate at 37°C for 3-7 days, until CPE are well advanced in 100% of the culture. A 5% CO<sub>2</sub> in air atmosphere is recommended.

### Comments

No serological cross-reaction with other human adenoviruses. Hemagglutinin active for rat and human erythrocytes.

### References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

### Key Abbreviations

°C, degrees Celsius

CPE, cytopathic effect

EMEM, Eagle's Minimum Essential Media

FBS, fetal bovine serum

### Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

### ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

### Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet,
