

Product Sheet

Influenza A virus (H3N2) (ATCC® VR-1679™)

Please read this FIRST

Storage Temp.
-70°C or colder

Biosafety Level
2

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Influenza A virus (H3N2) (ATCC® VR-1679™)

Description

Strain: A/Hong Kong/8/68

Classification: *Orthomyxoviridae*, *Influenzavirus A*

Original Source: Isolated from a patient in Hong Kong, 1968

Depositor: MT Coleman, Centers of Disease Control and Prevention; ATCC®

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:

MDCK (ATCC® CCL-34™)

Effect on Host:

CPE, rounding and degeneration

Medium:

EMEM (ATCC® 30-2003™) + 10 mM HEPES + 0.125% BSA fraction V + 1 µg/mL TPCK-treated trypsin

Growth Conditions

Temperature: 35°C

Recommendations For Infection: Plate cells 24-48 hours prior to infection and infect when cultures are 70-80% confluent. Remove medium and inoculate with a small volume of virus (e.g. 1 mL per 25 cm²) diluted to provide an optimal MOI (e.g. 0.01). Adsorb 1-2 hours at 35°C in a humidified 5% CO₂ atmosphere, rocking every 20-30 minutes to redistribute inoculum. End adsorption by adding virus growth medium.

Incubation: 2-4 days

References

References and other information relating to this product are available online at www.atcc.org.

Key Abbreviations

°C, degrees Celsius

BSA, bovine serum albumin

CO₂ (CO2), carbon dioxide

CPE, cytopathic effect

EMEM, Eagle's minimum essential medium

HEPES, N-2-Hydroxyethylpiperazine-N'-2-Ethane Sulfonic acid

MOI, multiplicity of infection

TPCK, TPCK, 1(Tosylamide-2 phenyl) ethyl chloromethyl ketone

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.
