

Product Sheet

Influenza A virus (H1N1) (ATCC® VR-1736™)

Please read this FIRST

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Influenza A virus (H1N1) (ATCC® VR-1736™)

Description

Strain: A/Virginia/ATCC1/2009

Classification: *Orthomyxoviridae*, *Influenzavirus A*

Original Source: Nasopharyngeal specimen from a patient positive for Flu A in Virginia, 2009.

Depositor: ATCC®

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:

MDCK (ATCC® CCL-34™)

Effect on Host:

CPE, rounded refractile cells with cell degeneration

Medium:

EMEM (ATCC® 30-2003) + 2 µg/mL TPCK treated trypsin + 0.125% BSA Fraction V + 10 mM HEPES Buffer

Growth Conditions

Recommendations for Infection: Plate cells 24 hours in advance and infect when cultures are 80-90% confluent. Remove medium and inoculate with a small volume of virus diluted with VGM to provide a MOI 0.1. Adsorb for 1 hour at 35°C in a humidified 5% CO₂ atmosphere. End adsorption by adding virus growth medium.

Incubation: Incubate infected culture for 2 to 5 days at 35°C in a humidified 5% CO₂ atmosphere, until CPE are well advanced through 90% of the culture.

Comments

Item analyzed using Real-time RT-PCR to determine strain is of pandemic swine Influenza A origin.

References

References and other information relating to this product are available online at www.atcc.org.

Key Abbreviations

°C, degrees Celsius

CO₂ (CO2), carbon dioxide

CPE, cytopathic effect

MOI, multiplicity of infection

MDCK, Madine Darby Canine Kidney

EMEM, Eagles Minimal Essential Medium

TPCK, tosyl phenylalanyl chloromethyl ketone

BSA, Bovine serum albumin

HEPES, hydroxyethyl piperazineethanesulfonic acid

µg, microgram

mL, milliliter

mM, millimolar

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC

2

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Influenza A virus (H1N1) (ATCC® VR-1736™)

lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org
