### Description

**Strain:** Chick/Calif/59 (Bankowski)  
**Classification:** Paramyxoviridae, Rubulavirus  
**Original Source:**  
Field case in 3- to 4-week-old chickens with respiratory infection, 1956  
**Depositor:** RA Bankowski

### Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

### Propagation

**Propagation Host:**  
chicken embryo  
HeLa cells (ATCC CCL-2); porcine kidney cells; chicken embryo fibroblasts  
**Effect on Host:**  
hemagglutinating activity in allantoic fluid  
mortality in embryo  
respiratory disease in chickens

### Growth Conditions

**Incubation:** 3-8 days

### Comments

Non-lethal for chickens, causes mild transient respiratory distress 6-9 days following intratracheal inoculation. Innocuous for mice. Detection in chickens more easily obtained using HI tests for specific antibodies. Ether inactivates infectivity but not hemagglutinins.

### References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

### Key Abbreviations

AI, allantoic  
Am, amnion  
C, chicken  
CE, chicken embryo  
HA, hemagglutination  
HeLa, human cervical carcinoma cells  
ID<sub>50</sub>, median infective dose  
PK, pig kidney  
USDA, United States Department of Agriculture

### Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

### ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
