## Description

**Strain:** LK 40  
**Classification:** Herpesviridae, unclassified  
**Original Source:**  
Guinea pig kidney cell culture  
**Depositor:** GD Hsiung

## Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

## Propagation

**Propagation Host:**  
guinea pig kidney cells  
guinea pig kidney cells; rabbit kidney cells  
**Effect on Host:**  
Cytopathic effects in tissue culture

## Growth Conditions

Duration: 10-14 days

## Comments

Morphologically a herpes-like virus. Very labile, can be stabilized at -60°C in the presence of 10% DMSO. Antigenically unrelated to GP salivary gland virus, ATCC VR-682 (Hsiung, G.D. et al., *Infect. Immun.* 13: 926, 1976).

## References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

## Key Abbreviations

CPE, cytopathic effect  
DMSO, dimethyl sulfoxide  
GP, guinea pig  
GPK, guinea pig kidney  
K, kidney  
Pen, penicillin  
Rab, rabbit  
Strep, streptomycin  
TC, tissue culture  
TCID<sub>50</sub>, median tissue culture infective dose

## Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

## ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
