

Product Sheet

Gallid herpesvirus 2 (ATCC® VR-585™)

Please read this **FIRST**

Storage Temp.
**Vapor phase of
liquid nitrogen**

Biosafety Level
2

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Gallid herpesvirus 2 (ATCC® VR-585™)

Description

Strain: JM
Classification: *Herpesviridae, Mardivirus*
Original Source: Chicken tumor; blood
Depositor: RL Witter

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:
Duck embryo cells (ATCC® CCL-141™)
Effect on Host:
CPE, cell rounding and enlargement with some syncytia

Medium:
EMEM (ATCC® 30-2003™) + 10% FBS (ATCC® 30-2020™)

Growth Conditions

Temperature: 37°C

Recommendations for Infection: For best results, infection should be performed by adding infected cells to freshly dissociated cells and planting simultaneously.

Incubation: 6-14 days at 37°C in a humidified 5% CO₂ atmosphere, until CPE is progressed through 80% of the monolayer.

Comments

Strongly cell associated *in vitro* and *in vivo* except for feather follicle epithelium of infected chickens.

Stable for at least 30 years in viable cells frozen at -196°C.

Antigens detectable by immunodiffusion and immunofluorescence. Antigenically related to herpesvirus of turkeys (HVT), but distinct from infectious laryngotracheitis and duck enteritis virus.

Proportion of viral DNA composed of guanine and cytosine is 56-57%.

References

References and other information relating to this product are available online at www.atcc.org.

Key Abbreviations

°C, degrees Celsius

CO₂, carbon dioxide

CPE, cytopathic effect

EMEM, Eagle's minimum essential medium

FBS, fetal bovine serum

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
