

Product Sheet

Bovine adenovirus 6 (ATCC® VR-642™)

Please read this **FIRST**

Storage Temp.
-60°C or colder

Biosafety Level
2

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Bovine adenovirus 6 (ATCC® VR-642™)

Description

Strain: 671130

Classification: Adenoviridae, Atadenovirus, Bovine adenovirus E

Original Source:

Isolated as a latent virus from primary calf testicular tissue cells, Netherlands, 1968

Depositor: SB Mohanty

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:

primary bovine embryonic kidney cells

primary bovine embryonic kidney cells in tissue culture

Effect on Host:

Characteristic adenovirus CPE and Type B intranuclear inclusion bodies

Growth Conditions

Incubation: 7 days at 37°C

Comments

70-80 nm in diameter. Characteristic adenovirus structure. Does not share common CF antigen with human adenoviruses. No cross-reaction with bovine adenovirus types 1-5. Antigenicity good. Acid stable.

References

References and other information relating to this product are available online at www.atcc.org.

Key Abbreviations

B, bovine

BEK, bovine embryonic kidney cells

CF, complement fixation

CPE, cytopathic effect

Pen, penicillin

Pr, primary

Strep, streptomycin

TC, tissue culture

TCID₅₀, median tissue culture infective dose

USDA, United States Department of Agriculture

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
