Description

Strain: 12056

Classification: Arenavirus

Original Source:

Isolated from the kidney of an adult female *Oryzomys bacchinatus*

Depositor: PA Webb

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:

suckling hamster

suckling hamster; Vero cells (ATCC CCL-81)

Effect on Host:

NGE: Suckling hamsters and Vero TC

Comments

Size (estimated by electron microscopy) approximately 110 nm. Envelope present. Pleomorphic shape. Intravirionic inclusions, no symmetry. RNA virus. Chloroform sensitive. Neutralization: Plaque reduction in Vero cells. SN antibody titer HO 1:64, Ht < 4. Direct Immunofluorescence: No reaction with other Tacaribe complex members. Indirect Immunofluorescence: 1 plus fluorescence Parana antiserum against LCM-infected cells 3T3 (Viral antigen).

References

References and other information relating to this product are available online at www.atcc.org.

Key Abbreviations

3T3, contact inhibited mouse line

NRS, normal rabbit serum

PBS, phosphate buffered saline

Pen, penicillin

PHS, Public Health Service

sHa, suckling hamster

sHab, suckling hamster brain

SN, serum neutralization

Strep, streptomycin

TC, tissue culture

USDA, United States Department of Agriculture

Vero, African green monkey kidney cells

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
