Description

Strain: TRVL 9375
Classification: Bunyaviridae, Orthobunyavirus
Common Name: Melao virus
Original Source:
Mosquito pool, Aedes (Ochlerotatus) scapularis, Trinidad, 1955
Depositor: RE Shope

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:
Suckling mouse
Production Host: Suckling mouse
Effect on Host:
In vivo: Death of host animal
Death

Growth Conditions

Recommendations for Infection: Inoculate intracerebrally into suckling mice. Resuspend 10% sMb with 7.5% BSA in PBS.

Incubation: 2-3 days

Comments

Sensitive to sodium deoxycholate. HA produced in goose RBC at pH 6.0 to pH 7.0 at 4, 22, and 37°C with optimal temperature 22°C. Officially recognized as prototype strain by American Committee on Arthropod-borne Viruses. Originally deposited as Melao virus (*Arbovirus, California group*), strain: TRVL 9375.

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: California encephalitis virus (ATCC® VR-761™)

ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org

Additional information on this culture is available on the ATCC web site at www.atcc.org.
